Innovative Teaching Methods

Whether you teach literature or chemistry, whether you are a pre-school or a secondary school teacher and whether you are a novice or an experienced educator, keeping your students engaged and making your lessons more effective by regularly employing different approaches should be as important for you as building rapport and developing your content knowledge.

Completing this course will help you meet the challenge of change in the modern classroom and become more successful, confident and forward-thinking. You will also learn how to create an innovative, open, creative and safe place for your students to grow, take risks and feel comfortable whilst taking an active role in your own education and becoming future-ready. You'll learn how teaching in the real world can result in a student-centred learning experience that fosters both personal and social development and that teaching without a coursebook or a classroom is not only a way of keeping your classes fresh and interesting for your students, but also a great method for your own development as a teacher. Completing this programme will also open doors to national and international employment opportunities and provide you with a globally recognised certification.

Programme Highlights

This programme aims to provide you with practical ideas for making your teaching more innovative.

In this programme you will

- explore teaching outside of the confines of the classroom walls;
- learn how to foster learning in informal settings and how to use everyday life experiences to spark interest in your students;
- evaluate methods and technologies for supporting innovative teaching and learning in terms of their efficacy and appropriateness for different settings and learners;
- consider teaching without the use of published materials, critically examine a range of innovative resources and review the use of authentic materials in the classroom.

Faculty

This programme is developed and delivered by QAI's team of subject and assessment specialists, teacher trainers, lecturers, conference speakers and researchers.

Assessment and Certification

QAI
Authenticating Learning

Qualifications
and Assessments
International, UK

This programme is externally validated and certified by Qualifications and Assessments International (QAI), UK, a private international awarding, accrediting, assessing and quality assurance body.

In order to achieve the Certificate of Participation, attendees are required to fully attend the programme.

Innovative Teaching Methods

Research grants for teachers to help students become future ready

Teaching Excellence And Relevance Management (TERM) analysis across 80+ parameters

zamit®

Let's begin...

Zamit is an innovative solution that revolutionises the school ecosystem with its unique Measure, Improve, and Monitor (M-I-M) method. Powered by an advanced AI model, Zamit offers personalised improvement programmes for students and teachers and insightful impact analyses through Learner Analytics (LA).

Students benefit from a comprehensive co-curricular programme that integrates over seventy 21st-century skills in the context of curricular subjects. The ground-breaking Zamit Quotient (ZQ) surpasses traditional IQ, EQ, and SQ tests, setting the Gold Standard for future readiness.

For teachers, Zamit provides Continuous Professional Development (CPD) using its TERM framework, covering 80+ teaching and management skills. Access to a vast Resource Vault further enhances classroom support.

Zamit also supports students from low-income households with scholarships and facilitates skills and knowledge-integrated learning research grants for teachers through The Future Foundation.

In partnership with QAI UK, Zamit awards international certifications mapped to the Regulated Qualifications Framework (RQF), England, Wales & Northern Ireland (UK's regulatory framework), and high-quality educational content from global experts.
