The challenges schools and teachers face when preparing students for success in the 21st Century

Preparing students for the VUCA (Volatile, Uncertain, Complex and Ambiguous) world is challenging for teachers who need to embed the teaching of future-ready skills in their classroom practice to provide a holistic education to their students.

India's National Education Policy 2020 (NEP 2020) recommends the comprehensive development of students by combining subject learning with future-ready skills. The International Baccalaureate (IB) also integrates subject knowledge with skills across the curriculum.

To stay relevant and effective, teachers should become mentors, guides and facilitators instead of lecturers. They need to be able to:

- build rapport and engage with digital natives;
- manage and lead the connected classrooms of the 21st century;
- keep students engaged with the help of digital technology;
- teach students about the effective use of the internet and ChatGPT;
- put an end to rote learning and help students develop their learning power;
- enable students to develop future-ready skills in addition to their subject knowledge.

The Z-TeX Programme for Educators

Enabling teachers to partake in professional development and in an analysis of their teaching and management skills is crucial for empowering them to achieve teaching excellence.

Zamit and its academic partner QAI, UK, have created an innovative Zamit's Teaching Excellence and Management Programme (Z-TeX) for school teachers that offers the world's first holistic approach to teacher development. It works on Zamit's proprietary Measurement, Improvement and Monitoring model (MIM) and is mapped to its research-based Nine Dimensions of Teaching Excellence and Relevance Management (TERM).

What does the Z-TeX Programme do?

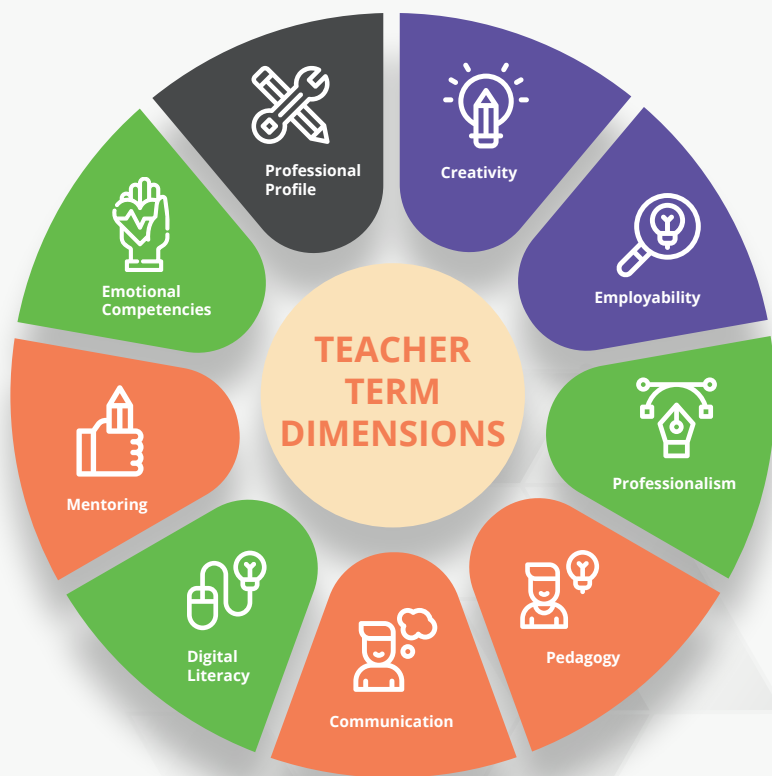

Zamit's Teaching Excellence and Management (Z-TeX) Programme provides the necessary skills and knowledge with regard to new-age teaching and helps teachers remain up-to-date with the latest trends in education. It also equips them with the tools necessary for guiding Gen Z and Gen Alpha towards success.

SCAN ME

Key highlights of the Z-TeX programme:

- **Duration:** 130 hours Programme (13 Credits)
- **Suitability:** Designed for teachers of classes 3 to 12
- **Unique Model:** Aligned to Zamit's research-based proprietary Nine Dimensions of Teaching Excellence and Relevance Management (TERM), covering over 70 skills and built on Zamit's proprietary Measure, Improve & Monitor (M-I-M) system model.
- **Professional Development Programmes:** Teacher development programmes on new and emerging areas surrounding the Nine Dimensions of TERM.
- **International Standards:** Mapped to the RQF (Regulated Qualifications Framework), England & Northern Ireland (UKs regulatory framework).
- **Certification:** 'QAI Level 5 Professional Certificate in Z-TeX – Teaching Excellence' offered through QAI, UK's leading international awarding, accrediting, assessing and quality assurance body.
- **Research Grant:** Option to participate and win Research Grants from an annual research pool of INR 5 lac, funded by The Future Foundation, a not-for-profit body that supports teachers and students for future readiness

- **Resource Vault:** Access to a rich and ever-growing Resources Vault that includes classroom support materials and professional development content
- **Academic Engagements:** Participation in periodic webinars and symposia led by national and international experts
- **Professional Portfolio:** The opportunity to build and update a Professional Portfolio
- **Recognitions:** Rewards and awards of recognition for demonstrating excellence in teaching and supporting students for future readiness
- **Delivery Mode:** A choice of face-to-face (at school), online or blended delivery

The TERM Score for Teachers

Zamit and its academic partner QAI, UK have created the world's first research-based, comprehensive framework that provides a Score for Teaching Excellence and Relevance Management. This is called the TERM Score.

The TERM Score is updated in real-time based on the teachers' engagement with Zamit through CPD programmes, TERM analyses, Research Grants, Zamit's Resource Vault, webinars and symposia among other engagement activities. The TERM Score is a teacher's global score that demonstrates the international level achievements of the teacher.

The TERM Score indicates a teacher's level of teaching excellence on a global scale.

The TERM Report for Educators

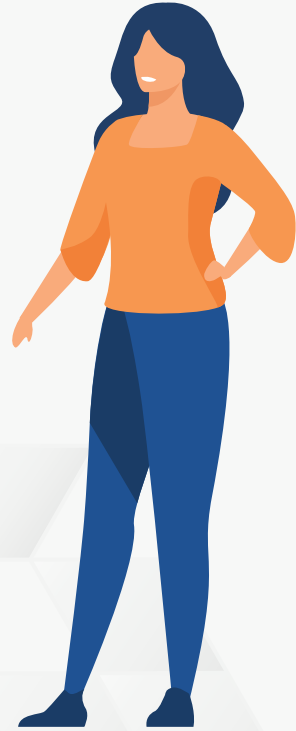

International Certification

The Zamit's TeX Programme is certified by Qualifications and Assessments International (QAI), UK's international awarding, accrediting, assessing and quality assurance body.

All the CPD Programmes are also mapped to the Regulated Qualifications Framework (RQF) of England and Northern Ireland, which is UK's national qualifications framework.

The certification will be based upon the achievements demonstrated during the course and graded as below:

- Pass with Distinction: 75% and above
- Pass with Merit: 60% - 74%
- Pass: 40% - 59%
- Certificate of Attendance: below 40%

Sample Certificates

A short list of CPD Programmes

Communication

- Effective Feedback Strategies to Maximise Learning Outcomes
- English Language Awareness for Teachers
- Teaching English to Young Learners
- Unveiling the Techniques to Communicate Effectively and Listen Actively

Creativity

- Competency-Based Teaching and Learning
- Innovative Assessment Methods
- Innovative Teaching Methods
- The Content and Language Integrated Learning Approach to Teaching (CLIL)

Digital Literacy

- Bridging Technology and Humanity in Education
- Game-Based Teaching and Learning
- Teaching Online, a New Frontier for Today's Innovative Educators
- Technology-Enabled Teaching

Emotional Competencies

- Creating a Classroom Culture of Success
- Revolutionising Learning with Empathy and Understanding
- Social-Emotional Learning (SEL) in the 21st Century

Employability

- Future-Ready Strategies for Educators
- Performance under Pressure

Mentoring

- How to Create a Positive Learning Environment
- How to Nurture a Growth Mindset in Students
- Transformative Mentorship in Education

Pedagogy

- How to Be an Effective Teacher
- Implementing the NEP 2020 Recommendations in Classroom Teaching
- Key Principles and Practices in English Language Teaching
- Mastering the Art of Classroom Management

Professional Profile

- Self-reflection and Commitment to Excellence
- The Power of Personality

Professionalism

- How to Bring Out the Best in Yourself and Your Students
- Reshaping Education for the Better

zamit®

Let's begin...

Zamit is an innovative system that supports the school ecosystem through its proprietary Measurement, Improvement and Monitoring (M-I-M) method. Utilising its unique AI-driven models, Zamit provides personalised and guided improvement programmes for students and teachers. It also undertakes impact analyses study to demonstrate improvement and growth using Learner Analytics (LA).

For Students, Zamit offers a comprehensive programme that integrates skills and knowledge development, fostering over a hundred 21st-century skills alongside regular school subjects. Zamit's state-of-the-art benchmarking framework, Zamit Quotient (ZQ), goes beyond traditional tests of IQ, EQ and SQ.

For Teachers, Zamit provides Continuous Professional Development (CPD) that evaluates, enables and empowers the teachers towards teaching excellence using its proprietary framework TERM (Teaching Excellence and Relevance Management), covering over 70 teaching and management skills. It also offers access to a rich and every growing Resource Vault that holds useful information, content and classroom support that can be used by the teachers.

Zamit also supports students from low-income households with scholarships and enables teachers to conduct research in the areas of skills and knowledge integrated learning.

International certifications are awarded through Zamit's partnership with QAI, a leading UK-based awarding, assessing and accrediting body, which also provides high-quality educational content from global experts.
