Competency-Based Teaching and Learning (CBE)

Competency-Based Teaching and Learning (CBE) represents an educational approach centred on fostering particular competencies or skills. Unlike traditional teaching methods, which prioritise content acquisition CBE emphasises the practical skills that they need to acquire. It stands as a personalised educational framework, offering a dynamic and immersive learning environment that blends academic knowledge with real-world aptitudes like critical thinking, problem-solving and collaboration. Its objective is to equip students with applicable skills beyond the confines of the classroom. This teaching method also offers greater flexibility for learners with varying abilities, improving their learning and career outcomes through personalised experiences. Typically, CBE programmes incorporate a sequence of competency assessments aimed at measuring students' mastery of specific skills, often integrating real-world contexts to augment relevance and practicality. Progression within CBE is contingent upon the demonstration of proficiency in explicit learning objectives or competencies, substantiated by evidence of student learning, rather than the duration spent on a subject. Ultimately, CBE aims to ensure students' readiness for employment and life's challenges by furnishing them with practical skills required for success in the contemporary world.

Completing this course will help you meet the challenge of change in the modern classroom and become more successful, confident and forward-thinking. You will also investigate the advantages and challenges of using CBE programmes in teaching and learning. You will evaluate different CBE programmes in terms of their efficacy and appropriateness for different settings and learners. You'll also develop a working understanding of successful competency-based teaching strategies that you can apply in your classroom. You'll learn how to design engaging, inspiring, inclusive and accessible competency-based learning programmes and you'll learn about the CBE approach to assessment and giving feedback. Completing this programme will also open doors to national and international employment opportunities and provide you with a globally recognised certification.

Programme Highlights

This programme aims to provide you with practical ideas for integrating competency-based teaching and learning in your classroom practice.

In this programme you will

- receive an opportunity to get started with CBE;
- receive practical ideas for designing CBE programmes;
- compare and contrast CBE strategies in the classroom;
- explore and evaluate best practices when starting with CBE;
- gain an awareness of the differences between assessment in CBE and traditional assessment;
- discuss how you could help make learning relevant and incorporate student experiences outside of the classroom into the learning process;
- evaluate ideas and techniques for providing opportunities for students to take ownership of learning and practise leadership skills in the classroom;
- receive tips, techniques and strategies for creating a student-centred learning environment and for giving your students voice and choice in your classroom.

Faculty

This programme is developed and delivered by QAI's team of subject and assessment specialists, teacher trainers, lecturers, conference speakers and researchers.

zamit®

Let's begin...

Zamit is an innovative solution that revolutionises the school ecosystem with its unique Measure, Improve, and Monitor (M-I-M) method. Powered by an advanced AI model, Zamit offers personalised improvement programmes for students and teachers and insightful impact analyses through Learner Analytics (LA).

Students benefit from a comprehensive co-curricular programme that integrates over seventy 21st-century skills in the context of curricular subjects. The ground-breaking Zamit Quotient (ZQ) surpasses traditional IQ, EQ, and SQ tests, setting the Gold Standard for future readiness.

For teachers, Zamit provides Continuous Professional Development (CPD) using its TERM framework, covering 80+ teaching and management skills. It also grants them access to an extensive Resource Vault, offering additional support to enhance their teaching.

Through The Future Foundation, Zamit supports teachers with research grants, provides scholarships to students from low-income households, and promotes integrated learning by enhancing their skills and knowledge.

In partnership with QAI, UK, Zamit awards international certifications mapped to the Regulated Qualifications Framework (RQF), England, Wales and Northern Ireland (UK's regulatory framework) and high-quality educational content from global experts.
